Dear Sir/Madam:

In response to your inquiry regarding MSDS information for our products, please note: In accordance with the Occupational Safety and Health Administration (OSHA), Material Safety Data Sheets (MSDS) need not be provided for products considered to be "articles of use, and are not chemical and/or reactive materials." Flexi-Post®, Flexi-Flange®, Flexi-Overdenture®, EDS' AccessPost™, EDS’ AccessPost™ Overdenture, ExactaCast®, World Post®, EZ-Fill® Safesider™ and Glove'n Care® hand cream fall into this category.

In the Code of Federal Regulations, Standard 290 CFR 1910.1200 (b) (6) (iv) defines "article" as that which is "formed to a specific shape or design during manufacture: (i) which has end use function (s) dependant in whole or in part upon its shape or design during end use; and (iii) which does not release, or otherwise result in exposure to a hazardous chemical, under normal conditions of use."

If you have any further questions, please do not hesitate to contact us at 1-800-22FLEXI (1-800-223-5394).

Sincerely,

[Signature]
Gary Cofrancesco
Director of Operations
